Academic Tutoring 学术支援

We provide one-on-one tutoring that caters to students' individual needs. Here at The Thinking Lab, we believe that both critical thinking and English language skills are key to unlocking knowledge, and we aim to assist learners throughout their journey of knowledge acquisition, helping them excel academically and professionally.

我们针对学生的个别需要提供一对一辅导。萃英教育深信具备批判性思考及良好的英文水平是通往知识的必要条件。我们旨在成为学生于学习旅途上可靠的同伴，协助他们在学业及事业发展上皆获得优异成绩。

Critical Thinking 批判性思考

To nurture critical thinking, students will adapt to a new learning environment in which teaching is not one-way but a dialogue. Selected readings on a wide range of topics are provided to prompt students to engage in discussions with their teachers. These sessions encourage the expression and debate of different opinions, shaping students into independent thinkers.

为了成功培育批判性思考，课堂将摆脱传统的单向授课模式，并鼓励学生在对谈中学习。学生将根据多元化的选读文章与导师进行一连串讨论，抒发及辩驳不同意见，从而塑造独立思考。

Interview Training 面试训练

The interview is the most personable aspect of an application. With our expertise in different schools' culture and selection criteria, we have developed question banks tailor-made to specific schools. Our interview training places emphasis upon interpersonal skills, and students will go through intensive mock interview sessions to prepare them for producing the best on-the-spot response.

面试是入学申请过程中最能展现考生优势的部分。我们十分了解不同学校的文化和收生准则，并凭经验设计了不同度身订造的问题库。训练以强化沟通技巧为重心，学生会透过模拟面试训练临场反应，为在面试中突围而出做好准备。

Applied English 应用英语

English is not just a language but a culture being developed and still developing over centuries. Students will be exposed to different topics ranging from grammatical structure and syntax to English language history and etymology. This all-rounded approach will nurture not just correct usage but full understanding of the language, thereby achieving not only accuracy but fluency in English.

英语不只是一种语言，更是历经变迁并一直持续演变的文化。从语法结构以至文字的起源及历史，我们的课程将全方位地提升学生对英语的认识及其英语水平，使学生能准确并灵活地使用英语。

Creative Writing 创意写作

Creative writing is a channel for students to realise their imaginations in the form of written words. Students will explore different genres, tone, register, as well as world literature and methods to generate ideas, through which they acquire the vision to see beyond their confines and write freely and professionally.

创意写作让学生能以文字实现他们的想象。学生将会探索世界文学以及不同的体裁、写作语调和构思方法，开阔视野从而打破写作限制。

Public Speaking 公开演说

Good leadership is always reflected in public speaking. Through vocal training and speech-writing exercises, students will be trained to express themselves effectively with confidence and conviction. Various forms of public speaking will be introduced and students will learn to showcase themselves in the best way possible in all situations.

良好的领导才能往往是透过公开演说被实现及反映出来。透过发声及演辞写作训练，学生将提升演讲时的自信心和说服力。学生亦会认识不同类型的演讲，务求在任何场合都能展示最好的自己。

Early Years Phonics 幼儿语音拼读

Phonics knowledge enables learners to better understand more advanced material at a young age. With a systematic method and a curriculum specifically designed for children aged 3-6, young learners are guided to decode sounds in complicated words, fast-tracking them in their comprehension of words and knowledge throughout their years of learning.

从小学习语音拼读法有助年幼的学生更早理解较高阶的文章及课题。我们的语音课程特别为3-6岁小孩而设，能引导他们有系统地拆解并拼读复杂的词汇音素，加快他们对不同生字及概念的理解。

Exam Preparation 考试训练

We provide examination preparation crash courses for our students to maximise as well as optimise test performance and results.

有鉴于我们对海外升学的专业知识，我们决心确保学生能取得优秀的学业成绩，好衔接学生到他们理想的下一站。我们将提供密集式培训以及针对性的教材和模拟试卷，保证学生在不同考试制度下都应付有余。
